

IN THE ABSTRACT

Please amend the Abstract as follows:

a' -- ~~The invention disclosed provides a~~ An improved rear view
5 ~~imaging system. The invention discloses a system comprising~~ a
reflective imaging means and means for mounting to a solid
surface, such as a desk or computer monitor. The system
~~invention~~ maximizes the possible field of view by providing
multi-directional rotation of the imaging and mounting members.
Further, multiple means for coupling and mounting are
10 contemplated.--
